### **DETAILED ACTION**

Please note the application has been transferred to a new examiner, as Examiner Brown is no longer with the Office. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to examiner Salimi. Thank you.

#### ***Response to Amendment***

This is a response to the amendment filed 01/10/2006. Claim 3 has been canceled. Claims 1, 2, and 4 are pending. Claims 1, and 4 have been withdrawn for reasons of record. Claim 2 is under active consideration.

**Applicants are reminded to cancel the claims to the non elected Group(s).**

In view of the amendment to the claim 2 the previously stated ground of rejections are herewith removed.

#### **New Grounds of Rejections:**

##### ***Election/Restrictions***

Newly submitted claim 2 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: "decrease" in calcium ion is directed to the invention which was not selected in response to the written restriction requirement. Applicants selection of Group II of 9/22/2005 is noted. Claims of Group II were previously examined on the merit and an office action was mailed. In response to the Office Action

Art Unit: 1648

Applicants now have amended the claim 2 to cover the invention of non-elected Group III. This is not permitted, and has to be reconciled.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 112***

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The limitation of “decrease” is a relative term subject to varied interpretation. The claim has been interpreted in light of the specification and since the disclosure does not set forth the parameter the claim is vague and indefinite. Moreover, the metes and bounds of the intended so called “agent” is not defined.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the agent or agents are missing.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: when to apply the “agent”, the step that promotes movement, additionally, the claim does not have a final step.

No claims are allowed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
